JOB OFFER

Automation Technician

Annual salary between \$49 920 and \$78 936

You are an experienced and skilled Automation and OT (Operation Technology) Technician willing to join a dynamic, devoted and motivated team in the fields of controls, industrial computing, new technologies for the renewable energy sector.

✓ About us

For over two decades, we have demonstrated an insatiable curiosity and desire to continuously improve. We are passionate about what we do, and we are determined to provide innovative and efficient solutions that exceed our clients' highest expectations.

Ganex invests in outstanding people of diverse background and talents and empowers them to achieve more than they could elsewhere. Our work combines advice with action and integrity that is why we are recognized as our clients trusted partner.

Ganex has activities all across Canada, has been doing projects in the US for the last 3 years and recently opened a new office in Illinois.

✓ Candidate profile

You will provide an optimal technical support and solution to our customers by investigating, managing, communicating and resolving automated process problems. You will demonstrate your ability to organize and manage your time and autonomy in the execution of your tasks.

✓ Your role

- Carry out SCADA and Automation projects at all stages (evaluation, development, installation, commissioning, maintenance and optimization);
- Repair and debug various SCADA platform;
- Program various data concentrator and protocol Gateway;
- Design complete systems, including power, interface and telecommunications
- Identify and communicate technical problems, procedures and solutions
- Analyse end user needs, advise and estimate the time to realize the work
- Write technical documentation and train end users when required.

✔ What we are looking for

Must Have:

- Bachelor degree in electrical engineering with an automation profile or other related field;
- 2 years experience in a similar role;
- Knowledge of SCADA, HMI and industrial communication protocols;
- Have a PE license or in the process of having it;
- Valid driver license;
- Fluency in written and spoken English.

Nice to Have:

- Experience of ability in Project Management;
- Good knowledge of IT in general (database, security, network).

✔ What we offer

- A permanent full-time position in a dynamic team and a friendly working atmosphere;
- A remuneration between \$49 920 and \$78 936, based on your experience;
- Paid time off subject to eligibility, such as vacation, sick and bereavement;
- Benefits, subject to elections and eligibility: Medical, Disability, Life insurance and Defined Contribution Retirement Plan.
